

COMPLETE VEGAN PROTEIN POWDER PLUS

Vegan protein blend of Pea, Flax and Hemp with added probiotic support.

Complete Vegan Protein Powder Plus Vanilla is:

- Comprised of three rich protein sources
- Gluten & Soy Free
- A plant based alternative source of protein
- Vegetarian and easily digested by people of all ages*
- Features 1 billion CFU of a stable probiotic
- Easy to mix, which makes it great for smoothies
- Smooth in texture so that it does not leave behind mouth "grit"

Recommended For

- Vegetarian diets or carb-restrictive meal plans (low fat and cholesterol diets)*
- People with sensitivities to soy, whey and/or animal proteins
- Weight, normal cholesterol and blood sugar support*
- Sports nutrition and body building because it delivers a steady supply of protein to the muscles*
- Additional support for muscle and tissue repair*
- Additional support for patients recovering from surgery*
- Elderly
- Bariatric patients
- Protein deficient patients

Key Ingredients & Benefits

Complete Vegan Protein Powder Plus Vanilla is comprised of natural pea protein isolate, delivering high nourishment with clinical functionality for a broad range of applications. A blend of flax and hemp enhances bioavailability. This great-tasting protein powder is rounded out with a stable probiotic to support digestive health.*

Pea Protein has demonstrated benefits related to metabolic hormones, glucose support, cardiovascular health, and muscle tissue.* A 2015 study showed pea protein produced ghrelin and insulin responses comparable to whey protein and supported glucose uptake, with lower blood glucose levels versus control (Food Nutr Res. 2015 Apr 13;59:25622).*

Flax Seed supports antioxidant activity and healthy lipid balance, including LDL and triglycerides (Atherosclerosis. 2005 Apr;179(2):269-75).* Its lignan content impacts platelet activating factor and supports healthy free radical activity (Circulation. 1999 Mar 16;99(10):1355-62).*

Hemp is considered a "perfect" protein source, providing fiber, minerals, and antioxidant properties. It supports cardiovascular health, glucose utilization, and immune function.* Hemp contains edestin, which supports antibody production and immune health.*

The combination of these proteins and a stable probiotic makes this formula a strong foundational product for a wide range of patients.*

Important Information

- **Warning:** If pregnant or nursing, consult your healthcare practitioner before taking this product.
- Keep out of reach of children. Store in a cool, dry place.
