

Moducare ES harnesses the benefit of plant sterols and sterolins from pine oil in a precision-crafted, 100:1 formula. This ratio of phytosterols, or plant fats, has shown in clinical studies to restore balance to the immune system, improve the body's resilience to disease, and bolster overall health.

Moducare ES is a blend of beta-sitosterol (BSS) and beta-sitosterol glucoside (BSSG), plant-based compounds that help to optimize the immune system. In this optimal ratio, these two phytosterols boost immune cell function and prevent the overproduction of antibodies and inflammatory agents, which may prevent various pathologies.

Free of GMOs, soy, gluten, sugar, dairy, sodium, colors, and flavors, Moducare ES is ideal for patients with allergies or dietary sensitivities.

RECOMMENDED FOR

- Maintaining a healthy immune response
- Reducing inflammation
- Improved wound healing

ABOUT THE FORMULA

Moducare ES contains two types of plant fats found naturally in pine (Pinus spp.) tree oil. South African scientists discovered that these two phytosterols formulated with this ratio, help to balance immune system function by regulating Th-1 and Th-2 helper cells. Low Th-1 function weakens disease resistance, while high Th-2 activity triggers excess antibodies and inflammation.

Clinical studies suggest this ratio of plant phytosterols may help to improve the condition of those with pulmonary tuberculosis and rheumatoid arthritis, boost immune response in HIV-positive individuals, and even improve immunity in marathon athletes who push their bodies to the limit. Other promising evidence suggests Moducare ES may help with allergies in adults and children.

SUPPLEMENT FACTS

Serving Size: 2 Capsules

Amount Per Serving

Plant Sterols (from Pinus spp., oil) 60 mg, Plant Sterolins (from Pinus spp., oil) 0.6 mg.

Other ingredients: microcrystalline cellulose, and silicon dioxide.

WARNING: If pregnant or nursing, consult your healthcare practitioner before taking this product.

DISCLAIMER

The information provided is for educational purposes only and has not been reviewed by the U.S. Food and Drug Administration.

SUGGESTED USE

As a dietary supplement, take 2 capsules daily between meals or as directed by your healthcare practitioner.
